

**THE CORPORATION OF THE  
TOWNSHIP OF MATACHEWAN**

To: Residents of the Township of Matachewan

You may notice a lot of activity around the Helipad and the Fire Department for the next few days.

The Ministry of Natural Resources and Forestry are fighting a wildfire northeast of Matachewan.

The Township of Matachewan is not in any danger at this time. Should that change at any time, you will be updated.

They are using the Fire Department as a Staging Area and using the Helipad to transport fire rangers, supplies and equipment.

We are in close contact with Emergency Management Ontario and the Ministry of Natural Resources and Forestry.

Janet Gore

Community Emergency Management Coordinator
