

MESSAGE FROM ECO-LOGIX

RECYCLING UPDATE

New precautions in place for recycling.

In a recent newsletter from Eco-Logix, all residents were advised to changes in the recycling pickup and asked to put their recycling in clear plastic bags instead of a bin.

The last week has been our grace period for all the residents. We accepted everyone's recycling even if it was in a bin instead of bagged, but as of this week we will not collect the material that is not bagged.

This is necessary to keep safe for everyone.

Also, paper materials should be bagged with the other mixed materials and can't be included with the brown cardboard.

The recycling has had a sharp increase due to excess purchasing and so many folks at home consuming. We're managing the extra material as best we can but it is making our regular schedule times off.
